Subject: Re: Status of Dimock GW Site

Cindy,

There is no way that I will be able to accept all these parameters and the number of samples. Is this a one time sampling event or will this be a recurring event? In addition, I think that it is extremely unreasonable that they will already be shipping samples to our lab without any discussion or paperwork. I cannot see how our lab staff can accommodate this request.

Subject: Status of Dimock GW Site

All,

Our branch has been actively involved with the sampling plan for the Dimock GW Site (Marcellus Shale residential well sampling). For those of you working on this, thank you very much for your time and energy in meeting the demands of this project! Here's a status for everyone.

Note:	All documents are stored	in Ex. 6 - Personal Privacy
NOIC.	All documents are stored	" Ex. 6 - Personal Privacy

Ex. 5 - Deliberative

We have finalized the parameter list and have labs assigned. Here is a link to that table [attachment "Shortcut to Dimock Parameters and Labs Jan06 2012.xlsx.lnk" deleted by Ron Altman/ESC/R3/USEPA/US]

An analytical request form is in progress but has not officially been submitted for Kevin to route.

Ex. 5 - Deliberative

Ex. 5 - Deliberative

To help track our efforts we have a summary report. Here is a link to that summary. [attachment "Shortcut to Dimock Groundwater Site_Lab Efforts Summary_Jan 06 2012.docx.lnk" deleted by Ron Altman/ESC/R3/USEPA/US]

Analytical work will be done by three Regions (R2, R3, and R9), NAREL (rad work), and commercial labs (Tier 4 - micro and Isotech methods).
